Feature Description Document

Authentication with Face Detection

Purpose

This document outlines the process of authenticating users with face detection.

Applies to

TITAN	TFACE	TOUCH 2
All Devices	All Devices	All Devices

Description

TITAN, TFACE and TOUCH 2 devices are equipped with a camera that can be used to authorize a user with face detection functionality.
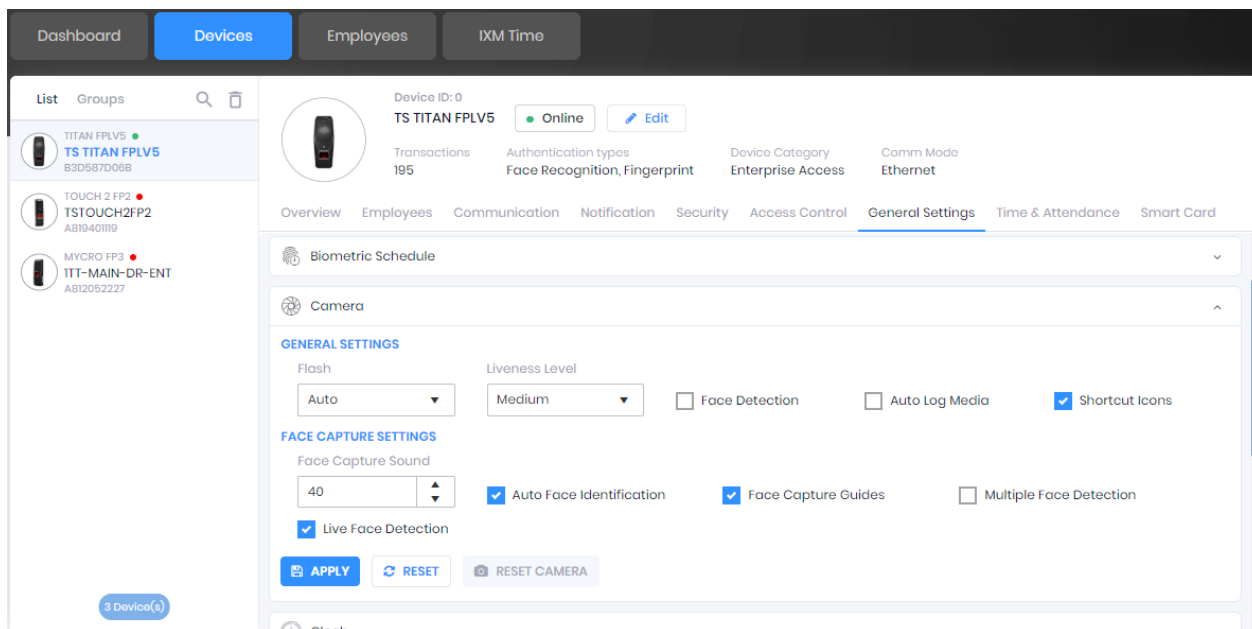

There are two ways to configure the camera settings of IXM devices:

1. From IXM WEB.

2. From the Device's LCD → **Settings** app.
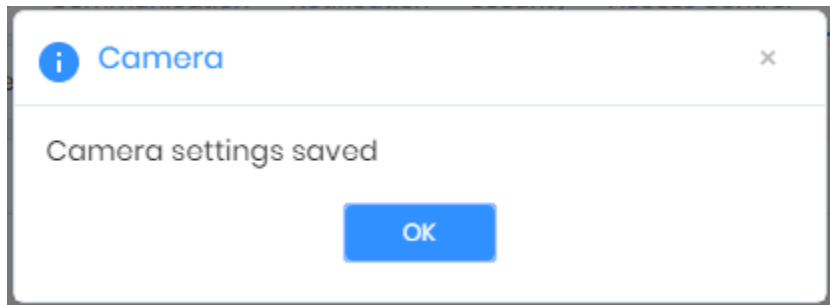

Configuring camera from IXM WEB

1. Navigate to the **Device** tab >> Select **Device** >> Select the **General Settings** navigation tab >> Expand the **Camera** app.

1. Select the "Face Detection" feature to enable face detection.

2. Click **Apply** to save the settings to the device.
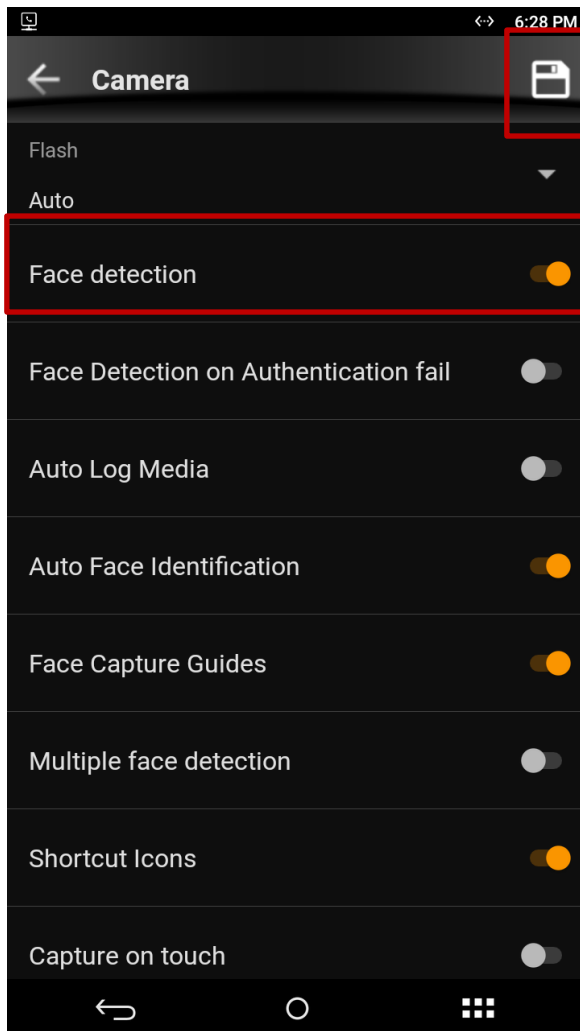

Configuring the camera on the LCD Menu

1. Swipe to the **Settings** app. Tap on the **Settings** icon. The device will prompt for device security authentication before opening the app.

2. Tap **Camera**.

3. Toggle to enable **Face Detection** and tap the **Save Icon** to store the settings.
