FAQ

1. Who can search devices in IXM WEB?

All IXM WEB users who have access to the DEVICE tab can search for devices in IXM WEB.

2. Does Auto Discovery find SSL device(s)?

Yes, Auto Discovery functionality finds all the devices which are in the same network, including SSL device(s).

3. I have two devices in the network and both are on different ports. Does Auto Discovery find those devices?

Yes, Auto Discovery does not depend on the device port number and it will find all the devices on the network.

4. I have IXM WEB and IXM devices that are on different networks. Does Auto Discovery find those devices?

No, Auto Discovery functionality searches only those device(s) which are on the same network.
